

Alternative 1 - No Action

In the No Action Alternative, the FHWA would not reconstruct this segment of the Beartooth Highway, and highway funds would not be expended on this project.

- **Future maintenance responsibilities would remain uncertain.**
- **As traffic increases, existing problems with the road would worsen.**
- **With current maintenance funding, the road would continue to deteriorate.**

Turnouts are unimproved

Narrow travel lanes and no shoulders

Poor drainage affects the roadway surface
